Coming Up

To continue to provide the best product training for our customers in the safest way possible, we are providing additional Web Training dates, and on an accelerated delivery schedule. This will prove to be effective training for your team members, delivering each training module segment over a two-day period (each day will provide four hours of training, with a two-hour break in between sessions).

Our Web Training sessions are instructor-led and provide training certification upon completion. Best of all, your team will not have to leave the office (or their homes) to complete this valuable training.

Tech Tip

How to use CalPro

CalPro is an invaluable database of step-by-step calibration procedures - a must for any calibration department. Any or all CalPro procedures can be imported into GAGetrak using the import utility provided or printed as hard copy from the DOC files included on the CalPro media. CalPro can also be used without GAGetrak as a library of work instructions for inclusion within your company's Quality Manual.

Double-click the CalPro icon that was placed on your desktop during the CalPro installation process. (If you did not choose to create a desktop icon during installation, navigate to **C:\ProgramData\CyberMetrics Corporation\GAGetrak 7.0\AppFiles** and double click on the **Cpp7.accdb** file.) Then, simply select the GAGetrak database to which you want to import the procedures and click **Import**.

Once imported, you can access the procedures by navigating to **Main Records -> Procedures**. The text of each procedure can be fully customized to best suit your company's needs and you can even add file attachments such as PDFs, images and Word documents via the **Procedure Image and Attachments** tabs within the **Procedures** screen.

[CLICK FOR IMAGE OF PROCEDURE SCREEN](#)

We encourage you to explore the additional capabilities of your GAGetrak software and as always, keep an eye out for future Tech Tips.

To register for any of these trainings or for info about our custom training options, please contact our Training Specialist at 1-800-777-7020 ext. 134 or training@cybermetrics.com.

Support Portal

Did you know that we have a GAGetrak Support Portal? The Portal includes a knowledge base for answers to common questions and explanations for any potential issues you may experience.

The Portal is also the most efficient way to create a support ticket and engage the support team.

Click [here](#) for instructions on creating a **Support Portal account** and further info about learning resources.
